OfficeMax®

Floor Standing Hand Sanitizer Dispenser

- Touchless activated floor-standing dispenser works with most liquid soap, and gel sanitizers.
- Place dispenser in any high traffic area, no need to mount on walls or property. White dispenser with drip tray is ideal for high traffic areas such as lobbies, schools, churches, gyms, offices, buildings, malls, warehouses, food service facilities, hospitals and much more.
- Automatic hands-free operation reduces the spread of germs and maintains a clean environment. Drip tray catches excess soap or sanitizer to keep floors and countertops remaining clean. If something is under the dispenser triggering sensor, dispenser will stop working to avoid any leakage.
- Locks to prevent vandalism, theft, and damage.
- Front window allows to easily view the amount of product to know when to refill.
- Powered by 4 x C (R14) batteries. Light indicator will inform you of low battery power and when batteries will need to be replaced. Battery power will allow up to 30,000 uses.
- Build in 1 x 1200ml refillable cartridge.
- Powder Coated Steel Post and Stand
- Products size : 11.4" x13" x 48" H
